Town of Fort Myers Beach
Agenda Item Summary

Green Sheet Number: 2013-038

1. Discussion Objective:

Work Session Date: August 19, 2013

Review and discuss the presented information associated with the Estero Blvd. improvements project.

2. Submitter of Information:

_ Council
√ Town Staff - PW
_ Town Attorney

3. Estimated Time for this item:

50 Minutes

5. Background:

The Town and Lee County staff has been working together with the County's consultant associated with the development of the 30% construction design plans related to infrastructure improvements along the County road known as Estero Blvd. The basis of the design elements is the Town's Streetscape Master Plan as adopted on June 12, 2000. A public workshop was held in February, 2013 to obtain public input related to the typical sections as provided in the streetscape plan.
All of the public comments and summary to the same, prepared by the County's consultant, have been provided to Town Council for review. Based on the public input received and other roadway constraints, the design team has reached a point where guidance from Town Council is needed prior to finalizing the 30% plans.
The team is seeking guidance primarily within the Core and High Rise Segments of the master plan. In addition, reaffirmation or selection of the first segment to be constructed is needed from Town Council.

Attached is a copy of the designated segments within the master plan. Presentation materials will be provided at the workshop. Should you wish to review the Streetscape Master Plan in advance of the workshop, they are available at Town Hall.

Town Manager	Town Attorney	Finance Director	Public Works Director	Community Development Director	Parks & Recreation Director	Town Clerk
