<input checked="" type="checkbox"/> Use of premises in the <u>DOWN TOWN</u> zoning district for:	
	<u>RESTAURANT WITH ALCOHOLIC BEVERAGES AND OUTDOOR SEATING.</u>

PART I
Narrative Statements

A. Request for: (indicate the proposed use that requires a special exception)

WE WISH TO OPERATE A RESTAURANT WITH AN OUTDOOR SEATING AREA. THE OUTDOOR SEATING AREA WILL CONSIST OF A 413.5 SQ.FT. DECK WHERE MEALS WITH BEER/WINE BEVERAGES WILL BE SERVED PER A 2 COP STATE LICENSE. THE PLANNED HOURS OF OPERATION ARE 10 AM TO 11 PM. THE SEATING CAPACITY ON THE OUTDOOR DECK SHALL BE 30 PERSONS.

B. Reasons for request: (state how the property qualifies for a special exception and what impact granting the request could have on surrounding properties. Direct these statements toward the guidelines in LDC Section 34-88)

The property qualifies for a Special Exception because:
SEE ATTACHMENT 1

ATTACHMENT 1

The changing conditions on the beach which make approval of the request appropriate would include the desire to grow and develop the beach in this time of economic depression where we have witnessed the closure of other nearby businesses.

The project will provide short & long term jobs for the local economy affecting the entire financial chain; construction, local contractors and subs, suppliers of construction materials, food/drink/gas distributors, waiters/waitresses/cooks.

The restaurant's commercial activities will contribute to the pedestrian-oriented public realm as described in the Comprehensive Plan. By way of its approved development order, this project meets the design concepts of this plan and the Land Development Code.

This project meets or exceeds all performance and local standards as evidenced by our approved (LDO 2007-00401) development order. Building plans are currently being pursued that support the intended use of the property.

In the LDO, the protection, conservation, or presentation environmentally of critical areas and natural resources are addressed. Additionally, our restaurant operation practices will be environmentally sound.

The restaurant project will be compatible with existing or planned uses by offering food and drink on the beach access while customers enjoy the gulf scenery. The completed project will greatly improve the appearance of the beach at Public Access #34. This will include a designated handicapped accessible parking spot and bathroom. It will increase value of local seasonal rental properties by offering a nearby family restaurant; provide additional dining, and employment for residents. We will prevent any inconvenience to the neighborhood by adopting reasonable hours of operation, from 10 a.m. to 11 p.m.

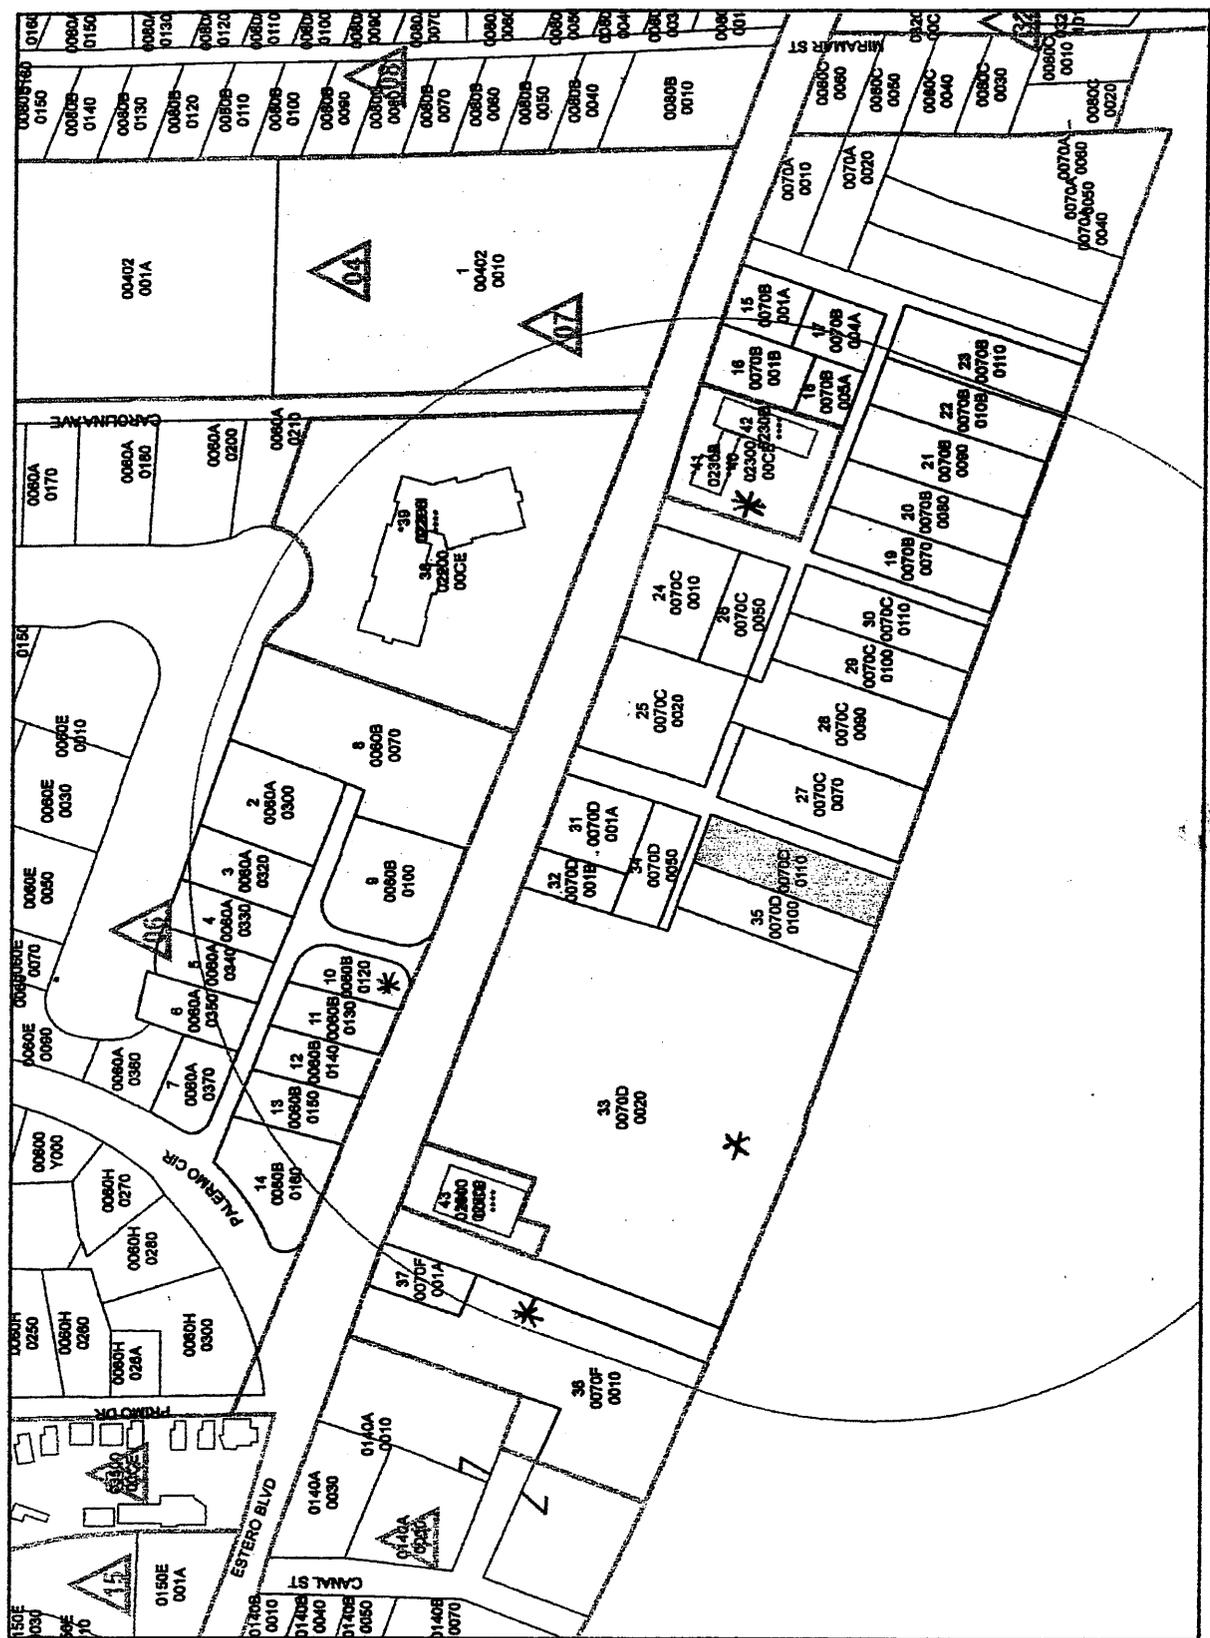

The requested use will be in compliance with the applicable general zoning provisions and supplemental regulations set forth in chapter 34 of the Land Development Code. Per the Code, a restaurant is allowed in this area, and the parking requirements are satisfied. The special exception is required because the proposed outdoor seating does not meet the administrative approval in section 34 – 1264.

Granting of this request will not cause any adverse effects on the surrounding properties. This restaurant will create a draw bringing more people to the area, supporting the service station, parking lots, other nearby establishments and potential rentals. The on-site turtle friendly video surveillance will provide an added level of security for the public access and surrounding properties. This project will also bring an added level of safety to local property owners, by the installation of new fire hydrant on Estero Blvd. at our expense.
