WHEREAS, the LPA recommends that the Town Council approve the requested variances subject to the following conditions:

1. The variances are for lot area and lot width and for a carport and raised deck addition to an existing single-family residence in substantial compliance with a survey prepared by Harris-Jorgensen, Inc., dated March 23, 2000, submitted by the applicant, stamped "VAR2001-00032" and received June 6, 2001, Community Development".

WHEREAS a hearing was held and the council considered the following criteria, recommendations and testimony of the staff, testimony from the applicant and from the public.

IT IS THE FINDING of this council that the following exist:

- a. That there are exceptional or extraordinary conditions or circumstances that are inherent to the property in question and that do not apply generally to the other nearby properties in the same zoning district;
- b. That the exceptional or extraordinary conditions or circumstances are not the result of actions of the applicant taken subsequent to the adoption of the ordinance (any action taken by an applicant pursuant to lawfully adopted regulations preceding the adoption of the ordinance from which this chapter is derived will not be considered self-created);
- c. That the variance is the minimum variance that will relieve the applicant of an unreasonable burden caused by the application of the regulation in question to his property;
- d. That the granting of the variance will not be injurious to the neighborhood or otherwise detrimental to the public welfare; and
- e. That the condition or situation of the specific piece of property, or the intended use of the property, for which the variance is sought is not of so general or recurrent nature as to make it more reasonable and practical to amend the ordinance.

NOW THEREFORE BE IT RESOLVED THAT THE VARIANCE IS APPROVED SUBJECT TO THE FOLLOWING conditions and requirements that are necessary for the protection of the health, safety, comfort, convenience and welfare of the general public and that are reasonably related to the variance requested:

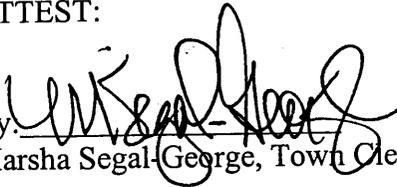

- A. The variances are for lot area and lot width and for a carport and raised deck addition to an existing single-family residence as delineated on a survey prepared by Harris-Jorgensen, Inc., dated March 23, 2000, submitted by the applicant, stamped "VAR2001-00032" and received June 6, 2001, Community Development.
- B. If the building is voluntarily removed from the property, then any subsequent structure(s) must comply with LDC requirements unless variances are requested and approved.

Howard Rynearson	aye
Daniel Hughes	aye
Bill Thomas	aye
W. H. "Bill" Van Duzer	abstain
Terry Cain	aye
