WHEREAS a hearing was held and the council considered the following criteria, recommendations and testimony of the staff, recommendations of the local planning agency, testimony from the applicant and from the public.

IT IS THE FINDING of this council that the following exist:

- a. That there are exceptional or extraordinary conditions or circumstances that are inherent to the property in question;
- b. That the exceptional or extraordinary conditions or circumstances are not the result of actions of the applicant taken after to the adoption of the regulation in question;
- c. That the variance granted is the minimum variance that will relieve the applicant of an unreasonable burden caused by the application of the regulation in question to his property;
- d. That the granting of the variance will not be injurious to the neighborhood or otherwise detrimental to the public welfare; and

e. That the condition or situation of the specific piece of property, or the intended use of the property, for which the variance is sought is not of so general or recurrent a nature as to make it more reasonable and practical to amend the regulation in question.

NOW THEREFORE BE IT RESOLVED THAT THE VARIANCE IS APPROVED SUBJECT TO THE FOLLOWING conditions and requirements that are necessary for the protection of the health, safety, comfort, convenience and welfare of the general public and that are reasonably related to the variance requested:

1. The variance is limited to the enclosure of the existing lanai.
