VI. MOORING FIELD AND STAFF REPORT

Harbormaster Gilchrist reported that everything was running smoothly. He noted they were doing five to ten pump-outs per day, but pump-outs outside the field had slowed down. He stated he was working with several entities to regulate MSD pump-outs outside of the Mooring Field. He indicated two divers were being trained in open water and advanced. New buoys were ordered for the field and the shape should cut down on growth and be easier to maintain.

Harbormaster Gilchrist reported that two new staff members were hired to focus on customer service in the maritime division. Director O’Riley stated the new contract with Matanzas allowed them to lease amenities monthly. She noted the town was taking over the administrative side effective October 1, 2021. She added that they had three months of dockage at Matanzas for the pump-out boat and Harbormaster Gilchrist was investigating dockage space at other locations. Director O’Riley indicated that the administrative office would be staffed seven days from 7:00 a.m. to noon. New employees Patrick Zamorano and Matthew Ball introduced themselves. Harbormaster Gilchrist stated that the VHF radio would be set up in the office.
