5. Background:

A presentation was provided at the August 5, 2013 Town Council Workshop by Lee County and their consultant performing the preliminary design work activities relating to the Estero Blvd. improvements. Based on that presentation, and ensuing discussion, the design team is hopeful to obtain guidance and direction to enable them to complete the 30% construction design plans for the Estero Blvd. improvements. The basis of the design elements is the Town's Streetscape Master Plan as adopted on June 12, 2000. Resulting from the public workshop held in February, 2013 public input was received related to the typical sections as provided in the streetscape plan.

All of the public comments and summary to the same, prepared by the County's consultant, have been provided to Town Council for review. Based on the public input and roadway constraints, the design team has reached a point where guidance from Town Council is needed prior to finalizing the 30% plans. The team is seeking guidance, from Town Council, associated with the Core and High Rise Segments of the master plan, reaffirmation or selection of the first segment to be constructed, and any other issues that were addressed at the workshop.
