For Immediate Release – Monday, August 16, 2021
REVISED START DATE FROM PRESS RELEASE DATED JULY 29

2525 Estero Blvd., Fort Myers Beach, Fla. 33931

Construction of new traffic signal at Old San Carlos and Estero Boulevards is scheduled to start on August 16

Town of Fort Myers Beach, FL – On Monday, August 16, construction is set to begin on the Town’s new traffic signal at the intersection of Old San Carlos and Estero Boulevards.

The work is expected to be complete by the end of 2021. Motorists should anticipate periodic lane closures and delays in the area and some work taking place at night. Ajax Paving Industries of Florida, LLC, is the contractor, and will be managing traffic. Two signalization mast arms and associated equipment are to be installed.

The Local Agency Program (LAP) through the Florida Department of Transportation (FDOT) is the funding source for this project. Estimated cost is \$776,511. This is the Town’s first LAP project since certification was obtained in 2020.

Lee County is also planning to install a second new signal at the intersection of Crescent Street and Estero Boulevard starting approximately in May of 2022. This signal is also to be completed with FDOT funding.

Call the Town’s Public Works Department at 239-765-0202 with any questions. Progress of both projects will be shared through the Town’s website (www.fmbgov.com) and social media outlets.

###

The Town of Fort Myers Beach, incorporated since 1995, is on Estero Island off the southwest Florida coast of the Gulf of Mexico. The beach stretches for seven miles and has sugar-white sand and spectacular shell finds and sunsets. The Town has a variety of unique cultural, parks, recreational and natural settings, as well as shops and restaurants.
