## VEGETATION REMOVAL PERMIT APPLICATION

INSPECTIONS: It is understood that submission of this application grants the director or the designee the right to conduct an on-site inspection to determine that any removal, pruning or other such activities conform to applicable Town of Fort Myers Beach ordinances.

**If proposed development requires preservation of vegetation and/or species, then barricades must be installed and inspected prior to permit issuance. If clearing is necessary to install barricades; then a minor clearing permit will be required prior to installation.**

The site inspection, once requested, will be conducted within seven (7) to ten (10) working days. Tree protection barricades must be in place at the time of inspection. In the event that the tree protection barricades are not in compliance and a subsequent site inspection is necessary, a re-inspection fee of sixty dollars (\$60.00) may be assessed to the permit fee.

Refer to the Town of Fort Myers Beach Land Development Code (LDC) Chapter 14, Article V, as amended, for all requirements. A copy of this ordinance may be obtained from: [www.fmbgov.com](http://www.fmbgov.com)

### SUBMITTAL REQUIREMENTS

A **Site Plan** that includes the following:

- a. Shape and dimensions of the lot or boundary survey
- b. The location of the existing or proposed structure(s) and any other improvements (e.g. drain field, driveway, etc.)
- c. A location map or the most current 1"=200' aerial with the site delineated
