5. Background:

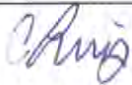

The Town has received funding from the Tourist Development Council (TDC) to upgrade and make improvements to beach accesses and to create bayside accesses. The Community Resource Advisory Board (CRAB) was requested to identify what types of improvements could be made at the beach accesses and identify two beach accesses where these improvements would begin. They also identified two bayside locations for improvements. CRAB has designed new beach access signs to be placed at all accesses and has approved an improvement design for the accesses. The beach accesses selected for improvements are Canal and Gulf Dr. CRAB has also approved the bayside improvement design at Gulf Beach Road and Delmar St. Attached for review are architectural renderings for the bay and beach accesses and the beach access sign design. A member from CRAB is scheduled to attend and speak to Council regarding this.

TDC funding for these projects is \$64,000.00 for FY 14. Additional funding for FY 15 has been requested to continue these projects in the amount of \$219,800.00 which includes three beach accesses and the public dock at the Gulf Beach Road bayside access
